Care with Every Drop...

OUR STORY

OrganixLab™ is establishing a passionate connection with cosmetology and natural beauty. We are here for those who seek real solutions without compromising on simplicity and sincerity. Immersed in a world intertwined with naturalness, health, and the grace of nature, we aim to provide gentle, pure, and effective formulas suitable for sensitive skin.

We combine science with art. Each of our products is meticulously crafted with the purest and most natural ingredients. We work tirelessly to preserve the skin health and natural beauty of our valued customers. Get to know OrganixLab™ and discover the fresh and pure touch that your skin and soul need.

We care with every drop!

ABOUT US

OrganixLab™ is a brand that strives to strike a balance between natural beauty and environmental consciousness, taking steps towards a sustainable future. While aiming for excellence in skincare, we also place great importance on conserving water resources worldwide.

During our 5-year R&D efforts, we collaborated with Koreda Cosmecca to develop the most effective formulas. By utilizing Bicosome technology in our formulations, we offer you the most effective and natural ingredients. Bicosome technology enables active ingredients to penetrate the skin more deeply, nourishing, moisturizing, and rejuvenating your skin while requiring less product usage. Our technology not only prevents water waste but also ensures comprehensive care for your skin's needs.

At OrganixLab™, we not only strive to prevent water waste in our skincare products but also in our own production processes. By reducing water usage by up to 40% in our manufacturing processes, we promote efficient water utilization. Additionally, we formulate our products using plant extracts and natural materials obtained from renewable sources instead of water. In doing so, we take a leading role in the conservation and prevention of water waste.

By embracing principles of natural beauty and eco-friendly production, our aim is to leave a more livable world for future generations. By choosing OrganixLab™ products, you can protect your skin's health while also supporting the conservation of water resources.

We care with every drop!

Bicosome® TECHNOLOGY

The Bicosome technology is designed to enhance the absorption of active ingredients in skincare products by the skin. Thanks to Bicosome technology, natural ingredients penetrate deep into the skin, providing essential nutrients. The superior feature of Bicosome technology allows you to nourish, moisturize, rejuvenate, and protect your skin while using less product and achieving more effective results.

By incorporating Bicosome technology into our products, OrganixLab™ merges natural beauty with science. The natural and organic ingredients in our products help you achieve a healthy glow without harming your skin. Our formulas, free from synthetic chemicals, provide comprehensive care for your skin's needs.

Clean Pore Serie

Clean Pore Serie

OrganixLab™'s Clean Pore Purifying Serie is a comprehensive skincare line specially designed for acne-prone and oily skin. This series deeply cleanses the skin with specially formulated products enhanced with Bicomide®, while also moisturizing and balancing the skin. Consisting of four different products including cleansing gel, toner, serum, and cream, this serie completes your skincare routine with effective ingredients such as salicylic acid (BHA), niacinamide, tea tree oil, and pineapple extract in each product.

Salysilic Acid

It helps to deeply cleanse the skin and prevent pores from clogging. Additionally, it helps reduce acne and blackhead formation by controlling excessive sebum production in oily skin.

Niacinamide

Niacinamide strengthens the skin barrier and reduces moisture loss, helping to maintain the skin's moisture balance. Additionally, it evens out skin tone, reduces the appearance of blemishes, and promotes a brighter and younger-looking complexion. It may also help reduce acne and acne formation.

Pineapple Extract

Thanks to its enzymes and natural acids, it rejuvenates, revitalizes, and brightens the skin. Additionally, it protects the skin against free radicals with its antioxidant properties and helps reduce the appearance of aging signs. Pineapple extract gently cleanses the skin, tightens pores, and helps smoothen the skin.

Bicomide®

Bicomide®, with its special active ingredients, deeply cleanses the skin and is ideal for acne-prone and oily skin. It helps to clean pores and prevent the formation of acne and blackheads while cleansing the skin.

Tea Tree Extract

Tea tree extract helps reduce shine and acne formation in oily skin while maintaining the skin's moisture balance.

Purifying Foam

Clean Pore Serie

Get clean and refined skin, for real. This ultra foamy cleanser provides a gentle, yet deep cleanse to the skin while helping to minimize the appearance of pores and leaving skin clarified, Softened, and perfected.

Radiate Brightens Serie

Radiate Brightens Serie

OrganixLab™'s Radiate Brightens Serie is a comprehensive skincare line specially designed For All Skin Types. This series is formulated to revitalize and brighten your skin. Enriched with Bicowhite®, the products even out your skin tone while reducing the appearance of dark spots. Ferulic acid protects your skin against environmental stressors, while niacinamide maintains and strengthens your skin's natural moisture balance. Additionally, with its vitamin C content, it enhances the radiance of your skin and brightens your complexion. Consisting of four different products including cleansing gel, toner, serum, and cream, this series can be easily integrated into your daily skincare routine and used regularly.

Ferulic Acid

Ferulic Acid, a plant-derived phenolic compound, is naturally found in plants such as oats, wheat, and rice. It is known for its antioxidant properties. Ferulic Acid protects skin cells against free radicals and helps reduce skin damage that may result from sun exposure.

Niacinamide

Niacinamide strengthens the skin barrier and reduces moisture loss, thereby maintaining the skin's moisture balance. Additionally, it evens out skin tone, reduces the appearance of blemishes, and promotes a brighter and younger-looking complexion. It may also help reduce acne and acne formation.

Vitamin C

Vitamin C derived from oranges possesses antioxidant properties. It protects the skin against free radicals and helps reduce signs of aging. It promotes firmer, more elastic, and youthful-looking skin. It evens out skin tone, aids in reducing spots and pigmentation. Additionally, it reduces skin damage caused by sun exposure and enhances a brighter and vibrant complexion.

Bicowhite®

It helps to even out the skin tone and reduce the appearance of spots. Bicowhite® supports balancing pigmentation and achieving a brighter skin tone.

Radiate Brightens Cleanser Gel

Radiate Brightens Serie

Radiate Brightens Cleanser Gel provide a refreshing cleaning to the skin. Used safely in cleaning face without allowing the skin to lose its natural moisture balance. Thanks to the support of vitamin C obtained from orange which protect the skin against external factors and to give the skin a bright and vibrant appearance.

Anti Blemish Serie

Anti Blemish Serie

OrganixLab™'s White Deluxe Series is a luxury skincare line specially designed For All Skin Types. This series consists of two main products: serum and cream, offering a unique formulation to brighten and even out your skin tone. Both products are enriched with extracts from 7 different unique Swiss Alpine plants, which nourish, renew, and revitalize your skin. Additionally, the niacinamide content maintains and strengthens your skin's natural moisture balance, while arbutin reduces the appearance of dark spots and pigmentation, resulting in a brighter and more evenly toned complexion.

Arbutin

This substance, derived from natural sources, helps reduce the appearance of dark spots and hyperpigmentation on the skin. By regulating melanin production, it evens out skin tone and contributes to a brighter and more balanced complexion.

Niacinamide

Niacinamide strengthens the skin barrier and reduces moisture loss, thereby maintaining the skin's moisture balance. Additionally, it evens out skin tone, reduces the appearance of blemishes, and promotes a brighter and younger-looking complexion. It may also help reduce acne and acne formation.

7 Unique Swiss Alpine Plant Extracts

Alpaflor Giga White helps even out skin tone and reduce the appearance of blemishes. This ingredient is a blend of extracts obtained from 7 unique Swiss Alpine plants and supports balancing pigmentation on the skin.

White Deluxe Serum

Anti-Blemish Serie

White Deluxe serum enriched with a combination of extracts from 7 unique Swiss alpine plants, arbutine and Niacinamide is a natural brightener that keeps the skin at its luminous best. It reduces discoloration in the skin, providing an even skin tone.

Youth Boosting Serie

Youth Boosting Serie

OrganixLab™'s Youth Boosting Serie is a specially designed skincare line with anti-aging properties suitable for all skin types. The series consists of three key products: cleansing oil, serum, and cream. Enriched with powerful antioxidants that help combat signs of aging, the Bicoalgae® XT content is one of the main components of this series. Hyaluronic acid, a key ingredient, deeply moisturizes the skin while strengthening and plumping the moisture barrier. Additionally, retinol supports skin cell renewal, while niacinamide maintains the skin's natural moisture balance, promoting a healthier-looking complexion. OrganixLab™ Youth Boosting Serie revitalizes your skin, giving it a youthful vitality while reducing signs of aging and rejuvenating your skin.

Hyaluronic Acid

It provides deep moisturization by balancing the skin's moisture levels. Additionally, it enhances the skin's plumpness, reduces wrinkles, and promotes a younger and vibrant appearance.

Retinol

It helps reduce wrinkles and improve skin texture. Additionally, it encourages cell renewal, resulting in a younger and healthier-looking skin.

Niacinamide

Niacinamide strengthens the skin barrier and reduces moisture loss, thereby maintaining the skin's moisture balance. Additionally, it evens out skin tone, reduces the appearance of blemishes, and promotes a brighter and younger-looking complexion. It may also help reduce acne and acne formation.

Bicoalgae® XT

Bicoalgae® XT is an innovative component found in OrganixLab™ products. Derived from seaweed, this formula helps maintain the skin's moisture balance, increases its elasticity, and protects the skin with its antioxidant properties.

Waterfall Cleansing Oil

Youth Boosting Serie

It moisturizes the skin with its rich vegetable oils while purifying the skin from environmental factors exposed throughout the day. With Hyaluronic Acid, Zinc PCA and Retinol, it reduces the feeling of tension and provides moisturizing.

- Hyaluronic Acid
- **For All Skin Types**
- Zinc PCA
- Retinol

Youth Boosting Serum

Youth Boosting Serie

Swipe away the look of fine lines with our overnight serum. This non greasy formula which enriched with Hyaluronic acid, peptide, ceramide, and retinol easily glides on to help visibly Soften and improve fine lines + wrinkles for a youthful complexion.

- Bicoalgae® XT
- **For All Skin Types**
- Hyaluronic Acid
- Niacinamide
- Retinol

Youth Boosting Cream

Youth Boosting Serie

Youth Boosting Cream helps to remove deep lines and wrinkles on the skin with Hyaluronic acid, peptide, ceramide and retinol in its content, it increases the elasticity of the skin and provides a taut and tighter appearance. It moisturizes without greasing with its water-based cream structure. It restores the lost volume of the skin and makes it plump.

- Bicoalgae® XT
- **For All Skin Types**
- Hyaluronic Acid
- Niacinamide
- Retinol

Reveal Serie

Reveal Serie

OrganixLab™'s Reveal Serie is a specialized peeling series designed for oily and acne-prone skin types. This series consists of two main products: toner and serum. Formulated with effective peeling agents such as AHA and BHA, its formulas deeply cleanse your skin and gently remove dead skin cells, thus reducing the appearance of clogged pores and blackheads. The toner is ideal for balancing your skin, tightening pores, and soothing the skin as a complement to the peeling process. The serum, on the other hand, smoothes and brightens the skin's surface while supporting the skin's renewal process and reducing the appearance of acne scars and blemishes. OrganixLab™ Reveal Serie provides significant improvement in oily and acne-prone skin with regular use, leaving your skin cleaner, brighter, and more balanced. Try this effective peeling series for healthier and more vibrant skin with each use.

Glycolic Acid (AHA)

It gently removes dead skin cells from the surface of the skin, supporting skin renewal. Particularly, AHAs containing Glycolic Acid help reduce the appearance of blemishes and pigmentation on the skin's surface. Additionally, it promotes smoother, brighter, and younger-looking skin.

Salysilic Acid (BHA)

It helps deeply cleanse the skin and prevents the clogging of pores. Additionally, it aids in controlling excessive sebum production in oily skin, thereby reducing the formation of acne and blackheads.

Reveal Tonic

Reveal Serie

Exfoliating tonic that cleanses the skin and helps remove dead cells. It helps reduce the appearance of porous skin and purify the skin from excess oil.

- AHA %10
- **Recommended For Acne-Prone & Oily Skin Types.**

Intense Hydrance Milky Serie

Intense Hydrance Milky Serie

OrganixLab™'s Intense Hydrance Milky Serie is a specially formulated skincare series designed to nourish and protect your skin. The products in this series contain natural and effective ingredients such as hemp seed oil, panthenol, niacinamide, aloe vera, strawberry extract, vitamin C, avocado oil, and coconut extract. Hemp seed oil maintains the skin's oil and moisture balance while providing anti-aging care. Panthenol moisturizes the skin and provides protection against environmental factors. Niacinamide prevents moisture loss, minimizes pores, and keeps the skin hydrated. Aloe vera provides care against skin blemishes, fights signs of aging, and moisturizes the skin. Strawberry extract, enriched with antioxidants, provides protection against free radicals and combats wrinkles. Vitamin C supports the skin's radiant appearance and provides care against dark spots. Avocado oil brightens the skin and reduces the appearance of dark circles, while coconut extract provides hydration and supports the skin's elasticity and firmness.

Coconut Extract

An excellent hydrator that locks in moisture. It's easily absorbed, softens skin cells, and maintains skin's elasticity.

Hemp seed oil

Intensively nourishes and cares for the skin thanks to Omega 3 and Omega 6 fatty acids and vitamins A-C-E.

Avocado Oil

An excellent ingredient that helps to brighten and lighten the appearance of the skin and is effective in helping reduce dark circles as well.

Strawberry Extract

The ellagic acid and antioxidants present in strawberries help protect your skin from free radicals and damage caused by environmental stressors. It helps combat the appearance of fine lines and wrinkles.

Milky Body Lotion

Intense Hydrance Milky Serie

A nourishing Milky Moisture Lotion that deeply moisturizes dry skin. Enriched with Avocado Oil, Niacinamide, Aloe vera, and Vitamin E, this formula provides intense hydration while leaving the skin with a soft appearance.

Protector Sun Care Serie

Protector Sun Care Serie

OrganixLab™'s Protector Sun Care Serie is a comprehensive sun care range that not only protects your skin from the harmful effects of the sun but also offers anti-aging and anti-darkening properties. This series consists of six different products, including sunscreen for acne-prone skin, anti-aging sunscreen, sunscreen for blemished skin, moisturizing sunscreen, sun stick, and sun lotion. Each product is enriched with the special formula Bicotene®, which effectively protects your skin from the harmful UV rays of the sun while nourishing and rejuvenating it.

Full Protection Against Sun

The Protector Sun Care Serie is a carefully crafted sun care collection that addresses a variety of skin concerns while protecting the skin from harmful UV rays. Enriched with the powerful antioxidant properties of Bicotene®, each product provides robust protection against the harmful effects of the sun. Niacinamide strengthens the skin's barrier function, maintains optimal moisture levels and reduces the appearance of sun spots by providing an even skin tone. Hyaluronic Acid deeply hydrates and plumps the skin, while Arbutin helps to even and brighten skin tone. Together with Retinol to target the signs of photoaging and Salicylic Acid (BHA) to combat clogged pores, the Protector Sun Care Serie is an indispensable aid for comprehensive sun protection and the maintenance of skin health.

Bicotene®

It is known as a raw material commonly used to provide antioxidant properties in sunscreens. This ingredient typically contains substances obtained from natural sources, such as beta-carotene.

Niacinamide

Niacinamide strengthens the skin barrier and helps reduce moisture loss, thus maintaining the skin's moisture balance. Additionally, it evens out skin tone, reduces the appearance of blemishes, and promotes a brighter and younger-looking complexion. It may also help reduce the formation of acne and pimples.

Protector Sun Care Lotion

Protector Sun Care Serie

Sunscreen lotion with High Protection and Moisturizing Effect is a sunscreen that helps maintain moisture balance in the skin with the support of moisturizing actives that target UVA & UVB protection.

Anti Fatigue Serie

Anti Fatigue Serie

OrganixLab™'s Eye Contour Serie is a specially formulated eye care range with anti-aging and anti-dark circle properties. This series consists of two main products: serum and cream. Enriched with carefully selected powerful antioxidants, Bicoalgae® XT content fights signs of aging around the eyes. Hyaluronic acid deeply moisturizes and plumps your skin while reducing the appearance of fine lines and wrinkles around the eyes. Additionally, retinol supports the skin's renewal process, while arbutin reduces the appearance of dark circles and pigmentation, providing a brighter eye area. OrganixLab™ Eye Contour Serie is suitable For All Skin Types and effectively combats signs of aging around the eyes while reducing the appearance of dark circles and puffiness. Try this special care series for a younger, brighter, and more vibrant eye area with each use.

Arbutin

This substance, derived from natural sources, helps reduce the appearance of dark spots and hyperpigmentation on the skin. By regulating melanin production, it evens out skin tone and contributes to a brighter and more balanced complexion.

Retinol

It helps reduce wrinkles and improve skin texture. Additionally, it promotes cell renewal, resulting in a younger and healthier-looking skin.

Hyaluronic Acid

It provides deep moisturization by balancing the skin's moisture levels. Additionally, it enhances the skin's plumpness, reduces wrinkles, and helps the skin appear younger and more vibrant.

Bicowhite®

It helps even out skin tone and reduce the appearance of spots. Bicowhite® supports balancing pigmentation and achieving a brighter skin tone.
